Dear Colleagues,

Warm greetings from Dementia India Alliance (DIA). We are delighted to invite you to DemCon 2026 – International Dementia Conference conducted by Dementia India Alliance. Building on the momentum and outcomes of previous editions, DemCon 2026 is themed “From Action to Acceleration.” The focus shifts toward scaling what works – amplifying impact, strengthening systems, & accelerating the translation of knowledge into sustained, large-scale change across the dementia care continuum.

Conference Objectives:

- Accelerate implementation of effective, evidence-based solutions to address gaps in dementia awareness, early diagnosis, care, and long-term support
- Strengthen multi-sector collaboration among government, corporates, NGOs, researchers, academia, & service providers to build an integrated ecosystem
- Showcase scalable innovations, best practices, and emerging research that can be adapted across diverse cultural & regional contexts
- Deepen policy engagement by bringing together policymakers to drive inclusive, sustainable, and person-centred dementia care frameworks
- Develop actionable recommendations to inform national & state-level strategies, influencing long-term systems change

DemCon 2026 will bring together over 1,000 delegates, including experts, healthcare professionals, researchers, caregivers, students, senior citizens, innovators, and policymakers from across India and around the world. Together, we aim to accelerate progress—moving from isolated efforts to coordinated impact, and from action to measurable, scalable change. We look forward to your active participation and partnership in making DemCon 2026 a defining milestone in India’s dementia care journey.

Dr Radha S Murthy

Chairperson, Organizing Committee

Dr Sridhar Vaitheswaran

Secretary, Organizing Committee

Who Can Attend: Clinicians, researchers, allied health professionals, NGOs, service providers, professional and family caregivers, senior citizens, volunteers, representatives of old age homes, corporate leaders who wish to play a role in improving dementia care, funding agencies and philanthropies, policy makers and experts in the field of mental health, faculty and students of medicine, psychology, social work, nursing, physiotherapy and other allied courses related to geriatric care, or anyone with interest in dementia.

Conference Highlights

- Insightful Plenaries & Symposia
- Pre-Conference Workshops
- Targeted Workshops
- Abstracts & Poster Presentations
- Competitions & Quizzes

Pre-Conference Workshops are scheduled on 17.09.2026 to offer specialized sessions on various aspects of dementia care. These workshops are designed to engage professionals, family caregivers, students, and others in in-depth learning and practical training. These preconference workshops require separate registration on the conference website.

Call for Abstracts: Authors are invited to submit abstracts (oral presentations / posters) written in English in line with the themes of the Conference. Submitted abstracts will be reviewed by the scientific committee and all abstracts accepted will be published in the official Conference Booklet. **Deadline for submission: 15.08.2026 | Submit on the conference website**
